Technician Coverage Risk Check: blank worksheet

Date: _____ Clinic: _____

Answer for one typical half-day session. Then use the rules to mark each area Low, Elevated or High. The online version at https://kestrelridgehealth.com/technician-coverage-risk-check/ does the same scoring for you and does not need an email.

YOUR ANSWERS

Providers seeing patients in a typical session	_____ providers
Technicians scheduled for that session	_____ technicians
Patients booked in that session	_____ patients
Share of visits that are complex or imaging-heavy	☐ Under a quarter ☐ A quarter to a half ☐ More than half ☐ Not sure
Technician call-offs in a typical month	_____ call-offs a month
Open technician positions right now	_____ open positions
How often the schedule changes on the day	☐ Rarely, less than once a week ☐ About weekly ☐ Most clinic days
How technician numbers are decided	☐ From appointment counts only ☐ Counts, with informal adjustment for visit type ☐ From the expected work of each visit type
When the technician plan is last checked against the booked schedule	☐ The day before or that morning ☐ Earlier the same week ☐ Only when the schedule is first set

SCORING RULES

Area	Rule	Your band
How much one absence removes	1 technician per session High; 2 to 3 Elevated; 4 or more Low.	_____
Call-off frequency	0 to 1 a month Low; 2 to 4 Elevated; 5 or more High.	_____
Open technician positions	0 Low; 1 Elevated; 2 or more High, or 1 when it equals 20 percent or more of a session's technicians.	_____
Visit mix versus planning	Counts only: High, or Elevated when complex visits are under a quarter. Informal adjustment: Low, or Elevated when over half or not sure. Planned by visit type: Low.	_____
Same-day schedule changes	Rarely Low; weekly Elevated; most days High.	_____
When the plan is last checked	Day before or morning Low; earlier that week Elevated (High if the schedule changes most days); only when set High.	_____
Overall	Needs 4 or more scored areas. High: 2 or more High, or 1 High with 2 or more Elevated. Elevated: 1 High, or 2 or more Elevated. Otherwise Low.	_____

NEXT STEPS YOU CHOOSE FOR THIS WEEK

1. _____
2. _____
3. _____

This worksheet holds operational counts only. Do not add patient names or any patient information. The bands come from fixed screening rules written by Kestrel Ridge Health. They are not industry benchmarks and are not clinical advice. https://kestrelridgehealth.com/technician-coverage-risk-check/
